

# PD-3x3-LP

Kelsey's PD-3x3-LP low profile power distribution unit provides a neat, tidy solution for fast power distribution in stage, studio and touring environments.

The rugged hardwearing steel casing makes this unit ideal for tough environments where speed and ease-of-use are critical. All units are fitted with 3 x 13A outlets on the top plate, plus 3 x Powercon outlets on side and Powercon in and thru and a 20A breaker to provide valuable protection.

# PD-3x3-LP

## FEATURES

- Power Input: 20A powerCON out allowing fast hook-up and daisy-chaining
- LED “mains present” indicator, recessed for protection
- Tough low-profile steel moulded case for extended heavy-duty use
- Thermal “over-current” trip protects both link-out and distributed outlets and allows fast restoration of power following an overload
- Rubber feet for stability
- Fully PAT tested before despatch
- Suitable for stage, touring and studio use
